This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

ADVERTISEMENT.

A COLLECTION of Chants, appropriated to the daily Psalms, having been found necessary for the use of the Minster Choir, the present Work has been prepared: and it is now published with the further purpose of stimulating a more general practice of Chanting throughout the Diocese and Province, as well as among the Congregation of this Metropolitan Church.

The Chants have been selected from the old Choir-Books, and from various Collections of sterling reputation and while the choice has not been guided by too exclusive a rule, all have been chosen for some merit of fitness or simplicity, or for being well-known and established favourites.

The superiority of the Single Chant being now widely acknowledged, and its ancient popularity largely regained, it has been deemed desirable to introduce a complete set of such Chants for the monthly course of the Psalter. But a sufficiency of Double Chants has been also provided: among which will be found the most approved specimens of the kind extant, as well as several written for this Work, and now printed for the first time.

Digitized by Google

The idea of using seven Chants, in rotation, for the "Venite," is borrowed from a scarce old Work, a copy of which is preserved in the Minster Library, entitled "*Some short Directions for the performance of Cathedral Service,*" printed at Oxford, in 1661, by Edward Lowe, Organist to King Charles the Second.

The Editor begs to acknowledge his obligations to those gentlemen who have allowed him to make extracts from their several Collections, or who have contributed original Chants. He also offers his best thanks to Messrs. Cramer and Chappell, Mr. R. Mills, and Messrs. Novello and Co., for permission to publish many valuable Chants by Dr. Crotch, and other distinguished Church Composers. All such Chants, as well as various adaptations and arrangements by the Editor, are copyright.

E. G. M.

Minster Yard, York,
July, 1859.
